

The 50/50 Program – What Concrete is Eligible?

Eligible – Standard city sidewalks and standard curb & gutter located within the city right-of-way.

Not Eligible – Driveways, driveway approaches and house walks (concrete walkways between the home and the street) – these are the homeowner’s responsibility. Commercial properties are also not eligible to participate in the 50/50 Program (unless they are located within a Residential zone).

How Do I Participate in the 50/50 Concrete Repair Program?

- The homeowner contacts Ogden City Engineering to express an interest in the 50/50 Concrete Repair Program.
- An Ogden City representative will visit the site to determine if it is eligible for participation in the 50/50 Program.
- Once the site has been determined “eligible”, the homeowner is given an application form for the program. The homeowner then hires a contractor to perform the work.
- ***Your contractor shall obtain an Ogden City permit!*** Ogden City permits are issued on the second floor of the city building at 2549 Washington Blvd. The permit fee will be waived. If you have questions about permits, contact customer service at (801) 629-8985 or by email at permits/insp@ogdencity.com.
- Once the work is complete, Contact Ogden City Engineering (801) 629-8919 for a final inspection.
- Home owner will pay the contractor in full. Once the contractor has been paid, bring the application, work invoice, permit, and proof of payment (copy of the check is best both front and back), to Ogden City Engineering, located at 2549 Washington Boulevard.
- Once Payment is verified, a reimbursement check will be mailed to the applicant.

Contact Ogden City Engineering at **801-629-8919** or by email at 50-50@ogdencity.com with any further questions.
